# ABOUT CONFERENCE

**GCSA 2027** brings surgeons, anaesthesiologists and perioperative teams together in Barcelona for two days.

Surgical and anaesthetic practice are addressed within a single programme rather than as parallel meetings. Sessions cover minimally invasive and robotic surgery, cardiothoracic surgery and neurosurgery, regional and obstetric anaesthesia, critical care and perioperative medicine, pain medicine, and patient safety and quality.

Case series, technique refinements and outcome studies are all within scope, and presentations are given in oral and poster sessions.

## REASONS TO ATTEND

- Expand Professional Networks
- Enhance Industry Visibility
- Engage with Leading Experts
- Access Valuable Insights
- Explore Emerging Trends
- Accelerate Professional Growth
- Foster Strategic Collaborations
- Showcase Research, Ideas & Expertise
