ABOUT CONFERENCE

GSFS 2027 convenes food scientists, technologists, nutritionists, regulatory professionals and industry researchers in Singapore for two days.

The programme covers food safety and microbiology, novel protein sources, functional foods and nutraceuticals, packaging and shelf life, sensory science and consumer research, food engineering and processing, nutrition and public health, sustainable food systems, and food informatics.

Work presented ranges from laboratory research to industrial application, and the programme is designed to bring those two together. Delegates present as oral or poster presentations, with discussion time built into each session.
